REACH – Konformitätserklärung

REACH regulation (EC) No. 1907/2006, Article 33

To ensure high product safety we follow the implementation of REACH regulation (EC) No. 1907/2006 for registration, evaluation, admission and restriction of chemical substances as well as complying to the requirements of obligation to inform according to article 33 and state as follows:

1. For all plastic parts, seal rings and packaging:

Since we do not have any information from our suppliers in accordance with article 33, regulation (EC) Nr. 1907/2006 REACH , we assume that there are no substances from the „candidate list“ included in the products, materials, preparations or articles which we buy from our suppliers . Therefore there was no obligation to provide information.

2. For components from brass:

On June 27th 2018, lead was added to the SVHC list (substances of very high concern). Since some brass components of the finished products that we deliver to you consist of alloys with a lead content >0,1 %, we herewith comply with the duty of providing information according to REACH regulation article 33. (<https://echa.europa.eu/de/candidate-list-table>).
